| CAUTION:  Note 1: ROM order of this product programs the Data Flash area.  Note 2: ROM data confirmation request  ROM programming will be processed based on the mask file generated by the mask file generating utility. Only in case when ROM data programmed in the actual mass produced product differs from that of above mentioned mask file, RENESAS takes the responsibility. There is no Engineering Sample, thus please confirm the ROM data at the receipt of the Initial product delivery.  Should you find any problem, please return immediately. 2 weeks without technical error feedback towards RENESAS will automatically be regarded as acceptance of products. |  |                |                                     |  |                 |                     |  |  |   |                 |         |     |                                       |                        |              |  |
| Note 3 : Mark specification Please refer to Fig. 1 about r   |  |                |                                     |  |                 | mark specification. |  |  |   |                 |         |     | yyy : ROM number<br>XXXX : Lot number |                        |              |  |
