Date: October 22, 2010

October 22, 2010

To: Our Valued Intersil Customer

Subject: AVLSI Technology Update - Consolidation of Wafer Fabrication and Background Operations at the Intersil Palm Bay, Florida Facility

This notice, PCN08050B, is being issued to inform customers of the completion of the consolidation and qualification activities for the AVLSI technology products affected by the change in manufacturing operations outlined in PCN08050 (dated July 15, 2008). The qualifying activity, DSCC (Defense Supply Center Columbus), has completed their review and approved the release of the AVLSI technology for production. Customers may expect to receive product fabricated in either qualified wafer fabrication module beginning ninety days from the date of this notice or upon depletion of current inventory. The AVLSI technology products are listed below and the original product/process change notice (PCN08050) is available on the Intersil web site at

http://www.intersil.com/design/quality/PCN_PLC/pcnletters/PCN08050%20customer%20notice.pdf.

As part of the production start-up of the AVLSI technology, Intersil is offering customers the opportunity to purchase samples of the listed DSCC SMD (Standard Microcircuit Drawing) Class V products manufactured in the consolidated wafer fabrication module. This opportunity will be in effect for three months from the date of this notification.

AVLSI products:
