RENESAS Tool News

Notification about Ending Support for Flash Development Toolkit Versions 2 and 3

We are ending support for Flash Development Toolkit versions 2 and 3.

1. Description

A fixed period of time has elapsed since we discontinued the marketing of Flash Development Toolkit versions 2 and 3. So we are ending support for these products: bug fix release and technical support, which have been made for the convenience of customers.

2. Dates of Ending Support for the Products

Support for Flash Development Toolkit Ver.2 is due to be discontinued at the end of March 2011, and that for Ver.3 at the end of June 2011.

3. Successor of the Products

The successor of the products concerned is Flash Development Toolkit V.4.

In the products MCUs have been supported, which were supported by Ver.2 and Ver.3, and we have fixed the problems in Ver.2 and Ver.3.

So use it. Its product type is R0C00000FDW04R. For an overview of Flash Development Toolkit V.4, see:
