AutoUpdate Utility Revised to V.1.05.00

We have revised AutoUpdate Utility from V.1.04.00 to V.1.05.00.

1. Description of Revision

Windows Vista(R) has been supported.
You can check whether revised programs to update exist in our database
or not by your user right for this task. However, you must be logged on
as a user with elevated permissions to run as a member of the
administrator group to modify autoupdate schedules and download the
revised programs to update.

If you are using Windows XP or Windows 2000, be logged on as a member of
the administrator group as before to run AutoUpdate Utility on it.

Note:
The 64-bit Windows Vista has not been supported.

2. How to Update Your Product

To update your AutoUpdate Utility, use it by itself. This service is
being available from February 23 on.
Otherwise, download the update program for the revised product from
http://www.renesas.com/hew_download
and then execute it. The above Web site will be opened from
February 23 on.
