RENESAS Tool News

e2 studio Integrated Development Environment V4.0.1.007 Update

We are updating the e2 studio integrated development environment (IDE) from V4.0.0.26 to V4.0.1.007

For an overview of the product, see the following page:
https://www.renesas.com/e2studio

---

1. Product and Versions to be updated
   e2 studio V4.0.0.26

   You can check the version number of your e2 studio in the dialog box
   opened by selecting "About e2 studio" from the "Help" menu of e2 studio.

2. Description of Revision
   - Addition of Supported MCUs
   RX Family: RX634 group, RX23T group

   For details, see the e2 studio Release Note:
   https://www.renesas.com/e2studio_document

   - New emulator support
   E2 emulator Lite (abbreviated name: E2 Lite) is newly supported for RX
   Family.

   For more information on the E2 emulator Lite, see the Web page below.
   https://www.renesas.com/e2lite

   The page will be available from June 22.

   Note: E2 emulator Lite is under development, and it will be available

in July.

3. Updating Your Product

3.1 Online updating
   Select "Check for Updates" from the "Help" menu of e2 studio
   for the automatic updating.
   This service will be available from June 22, 2015.

   Note1:
     Auto-updating cannot handle updating to V4.0 from V3.1 and earlier
     versions. Install the V4.0.1 in the way described under 3.2.

3.2 Downloading the installer file from the Web site
   Downloading the installer file for e2 studio V4.0.1.007 from the Web
   site below, install it using the installer.
   The file will be published on this site on June 22, 2015.

   e2 studio download site:
    https://www.renesas.com/e2studio_download

   Note1: There are two types of installer, for on-line called "Web
          installer" and for offline.
          For environments without internet connection, use the offline
          installer.
          For details, see the instructions on the download site above.

   Note2: Installed directories should not be overwritten by any different
          versions. Only the same version installer is allowed to overwrite
          to the same directories by using Modify installation feature.

   Note3: If you would like to keep the earlier installation, install a
          different version of e2 studio in a newly created folder.
