Software for the PG-FP5 Flash Memory Programmer

Outline

We are revising the software for the PG-FP5 flash memory programmer.

For details of the PG-FP5 software, see the following page.

http://www.renesas.com/pg_fp5

1. Software to Be Updated

The following software can be updated to the latest versions.

Software to Be Updated	Latest Version
Firmware V2.13 and earlier versions	V2.14
Programming GUI V2.13 and earlier versions	V2.14

For how to confirm the versions you currently have, refer to the following URL.

http://www.renesas.com/pgfp5_ver

When updating to the above software, use V4 of the FPGA data.

2. Description of Revision

2.1 Operating Environment

Support for Windows 10 (32- and 64-bit) has been introduced.

2.2 Problem Fixed

- (1) The problem in a point to note regarding the downloading of program files has been fixed.

The problem that we announced in a cautionary note (issue No. 150916/tn2 of Renesas Tool News) has been fixed.

Point to note regarding the downloading of program files For details of the problem, refer to the URL below.

http://www.renesas.com/doc/toolnews/eng/2015/150916tn2_e.pdf

3. Updating Your Product

Online updating is available free of charge.

To do so, download the updating programs from the download page on our web site at the URL below.

The above programs will be available from April 20.

http://www.renesas.com/pg_fp5_download

Refer to the PG-FP5 user's manual for details of the update.
