Mount Pad Dimensions

$l_2 = L + \beta_1 + \beta_2$

$b \le b_2 \le e - \gamma$

l_2 and b_2 can get by following formula and value e and b from package drawing figure and below parameter table.

• Dimension parameter

(Unit: mm)

e	0.80	0.65	0.50	0.40
α	0.30	←	0.10 to 0.30	←
β_1	0.50	←	0.20 to 0.40	←
β_2	0.20 to 0.40	←	←	←
γ	0.30	←	0.25	0.20

(Reference values based on the former EIAJ ED-7404 standard)
