

Renesas Ready Ecosystem Partner Solution

1NCE SIM Cards

Solution Summary

1NCE is the only software and connectivity company delivering lifetime IoT for a global flat subscription. Its mission is to deliver true cross-border, future-proof IoT without uncertainty or hassle over the lifetime of a device. 1NCE delivers unrivaled global IoT software and connectivity worldwide through secure and reliable network services in partnership with operators like Deutsche Telekom and SoftBank. 1NCE SIM cards deliver ready-to-use connectivity in more than 173 countries. The SIM cards work out-of-the-box with [RA Family](#), [RX Family](#) and [RL78 Family](#) of MCUs.

Features/Benefits

- 1NCE Connect
 - Global Cellular IoT Connectivity
 - Hassle-free Billing: One-Time Payment
 - 10 Years of Service
 - Volume included: 500MB, 250 SMS
 - Freedom to Switch
- 1NCE OS
 - Secure Software Tools for IoT use cases
 - Accelerate Time-to-Market by Months
 - Determine Geolocation of Devices without GPS
 - Optimize Energy Usage of Battery-powered Devices
 - Zero-Touch Provisioning
 - AWS and Azure Integration
