1.4 Consolidated Forecasts

The Group reports its consolidated forecasts on a quarterly basis as a range because of the difficulty of forecasting full-year results with high accuracy due to the short-term volatility of the semiconductor market.

Additionally, in order to provide useful information to better understand the Group's constant business results, figures such as gross margin and operating margin are presented in the non-GAAP format, which excludes or adjusts the non-recurring items related to acquisitions and other adjustments including non-recurring expenses or income from the figures based on GAAP (IFRS) following a certain set of rules.

The gross margin and operating margin forecasts are given assuming the midpoint in the revenue forecast.

(For the three months ending March 31, 2024)

| | Non-GAAP Revenue | Non-GAAP Gross Margin | Non-GAAP Operating Margin |
|---|--------------------|-----------------------|---------------------------|
| Previous forecasts | --- | --- | --- |
| | Million yen | % | % |
| Forecasts as of February 8, 2024 | 337,500 to 352,500 | 55.0 | 30.0 |
| Increase (decrease) | --- | --- | --- |
| Percentage change | --- | --- | --- |
| Reference: The first quarter results of the year ended December 31, 2023 | 359,666 | 56.2 | 34.7 |

Note: Non-GAAP figures are calculated by removing or adjusting non-recurring items and other adjustments from GAAP (IFRS) figures following a certain set of rules. The Group believes non-GAAP measures provide useful information in understanding and evaluating the Group's constant business results, and therefore, forecasts are provided on a non-GAAP basis. This adjustment and exclusion include step-up depreciation of property, plant and equipment, amortization of intangible assets recognized from acquisitions, other PPA adjustments and stock-based compensation, as well as other non-recurring expenses and income the Group believes to be applicable.

The consolidated forecasts for the three months ending March 31, 2024 are calculated at the rate of 142 yen per USD and 155 yen per Euro.

The statements with respect to the financial outlook of the Group are forward-looking statements involving risks and uncertainties. The Company cautions you in advance that actual results may vary materially from such forward-looking statements due to several important factors.

1.5 Dividend Payments

From the perspective of maximizing enterprise value, in order to respond to rapid changes in the business environment and thrive in the global marketplace, the Group aims to achieve a durable financial structure by appropriating retained earnings for strategic investments such as research and development of new products and technologies as well as capital expenditures, and to distribute part of its earnings to shareholders. For each dividend period, payment determinations are made with consideration of consolidated and non-consolidated retained earnings, consolidated profits, outlook for profits for the next and future periods, and cash flows status.

As a result of declining business performance due to the deterioration of the business environment surrounding the Group, the Group has continued to withhold dividends since the implementation of the year-end dividend for the fiscal year ended March 31, 2005. However, the Group has established a durable financial structure through measures such as the completion of various structural reforms and growth investments.

In light of these circumstances, as a return to shareholders, the Group has conducted two rounds of buybacks of its own shares totaling 250 billion yen in June 2022 and April 2023. Furthermore, as an additional measure for further return of profits to shareholders, the Group has decided to resume dividend payments. For the fiscal year ended December 31, 2023, the Group plans to distribute a year-end dividend of 28 yen per share. This matter is planned to be proposed at Renesas' Annual General Meeting of Shareholders scheduled for March 2024.

Dividends for the next fiscal year are undecided at this time and will be disclosed as soon as they are determined. The Group will continue to work toward continuous and stable dividends.

2. Primary policy for selection of accounting standards

The Group has adopted International Financial Reporting Standards (IFRS) for its consolidated financial statements from annual securities report for the fiscal year ended December 31, 2018 to increase the international comparability of financial information considering that the Group drives its business globally further.

(Acquisition of Transphorm, Inc.)

Renesas entered into a merger agreement to acquire Transphorm, Inc. (hereinafter "Transphorm"), a global leader in GaN (Gallium Nitride) power semiconductors, through a cash transaction via a subsidiary on January 11, 2024.

(1) Purpose of the acquisition

Demand for highly efficient power systems is increasing as building blocks for carbon neutrality. To address this trend, an industry-wide transition toward wide bandgap ("WBG") materials, represented by silicon carbide ("SiC") and GaN, is also being seen. These advanced materials allow a broader range of voltage and switching frequency than conventional silicon-based devices. To build on this momentum, Renesas has announced the establishment of an in-house SiC production line, supported by a 10 year SiC wafer supply agreement.

Through this acquisition, Renesas aims to further expand its WBG portfolio with Transphorm's expertise in GaN, an emerging material that enables higher switching frequency, lower power losses, and smaller form factors. These benefits empower customers' systems with greater efficiency, smaller and lighter composition, and lower overall cost. The Group will implement Transphorm's auto-qualified GaN technology to develop new enhanced power solution offerings, such as X-in-1 powertrain solutions for EVs, along with computing, energy, industrial and consumer applications.

(2) Overview of the acquiree

- a) Name: Transphorm, Inc.
- b) Location: Goleta, California, USA
- c) Business overview: Design and manufacturing of high-performance and highly reliable GaN (Gallium Nitride) semiconductors for high-voltage power conversion applications.

(3) Acquisition Method

Renesas will acquire all outstanding shares of Transphorm's common stock for 5.10 dollars per share in cash, through a subsidiary, representing a premium of approximately 35% to Transphorm's closing price on January 10, 2024, a premium of approximately 56% to the volume weighted average price over the last twelve months and a premium of approximately 78% to the volume weighted average price over the last six months. The total acquisition value amounts to approximately 339 million dollars (equivalent to approximately 49.2 billion yen at an exchange rate of 1 USD = 145 JPY).

(4) Schedule

The acquisition is expected to close in the second half of calendar year 2024, subject to Transphorm stockholder approval, required regulatory clearances and the satisfaction of other customary closing conditions.
