IE-784976-NS-EM1

(Control Code: C)

Operating Precautions

Be sure to read this document before using the product.

1. Product History

Notes on Using IE-784976-NS-EM1

1. Product History

No.	Bugs and Changes/Additions to Specification	Control Code ^{Note}		
		A	B	C
1	The μ PD784976A Subseries cannot be emulated.	√	–	–
2	The asynchronous serial interface (UART) function of the μ PD784976A Subseries cannot be emulated.	√	√	–

√: Applicable, –: Not applicable

Note The “control code” is the second digit from the left in the 10-digit serial number in the warranty supplied with the in-circuit emulator you purchased (if it has not been upgraded). If the in-circuit emulator has been upgraded, a label indicating the new version is attached to the in-circuit emulator and the x in V-UP LEVEL x on this label indicates the control code.
