# [Upgraded to Revision]

# Model Based Development Environment

# Embedded Target V6.06.00

R20TS1004EJ0100 Rev.1.00 Feb.1.2024

#### Outline

Model Based Development Environment Embedded Target has been updated from V6.05.00 to V6.06.00.

The Embedded Target is tool for co-simulation between the CS+ or e<sup>2</sup> studio integrated development environment from Renesas interlinked with MATLAB® and Simulink® from the MathWorks, Inc. Among other things, this will support the validation of algorithms and model-based development by customers.

For an overview of the product, please refer to the product page from the following URL:

### 1. Products and Versions to Be Updated

Embedded Target V5.00.00 ~ V5.01.00, V6.00.00 ~ V6.05.00

To check the version of Embedded Target, click the [Configuration Parameters] menu of Simulink® Model > [Code Generation > Embedded Target Options > About Embedded Target] to open the dialog box.

### 2. Descriptions of the Update

The main features of the update are described in the following sections.

### 2.1 Improved Functionality

MATLAB® versions R2018b, R2021a, R2021b, R2022a, R2022b, R2023a, 2023b are available to cooperate to Embedded Target now. Contact to technical support for detail information of MATLAB version that can be cooperated with Embedded Target.

## 3. Updating Your Product

### 3.1 Download the [Installer/Updater] from the Web

Download the installer from the Embedded Target product page (the following URL).

https://www.renesas.com/embedded-target#downloads

Uninstall the old version and install the new version according to the version of MATLAB supported by Embedded Target. For uninstallation instructions, please refer to the Embedded Target Quick Start Guide, which can be downloaded from the product page. If you have any questions, please contact our technical support.

### 4. Information of commercial versions

For more information, please refer to the release information on the product page.

https://www.renesas.com/embedded-target#tab-release-information

MATLAB®, Simulink® are registered trademark of The MathWorks, Inc. https://www.mathworks.com/company/aboutus/policies\_statements/trademarks.html
